

標題	Inmate Three-Legged Basketball Relay Fun Competition
內文	<p>To promote healthy recreational activities, enhance inmates' physical and mental well-being, and cultivate teamwork and a sense of honor, the institution held a "Three-Legged Basketball Relay Fun Competition" for inmates on May 13. A total of eight teams representing various workshop divisions participated in the event, with 35 inmates competing together and demonstrating strong team cohesion and enthusiasm.</p> <p>As soon as the starting signal sounded, the contestants, with their ankles strapped together, dashed forward with full effort. Some teams displayed outstanding teamwork and loudly chanted slogans as they advanced toward the finish line with remarkable speed and coordination. Other teams nearly lost their balance due to mismatched steps, but they quickly supported one another, adjusted their pace, and continued the race, fully embodying the spirit of perseverance and sportsmanship.</p> <p>In the end, the team representing the Fifth Division claimed the championship through exceptional teamwork and coordination. The institution will continue to promote diverse and rehabilitative educational activities to help relieve the stress of incarceration. It is also hoped that through such competitions, the values of unity and cooperation can take root in the participants' minds and become a source of strength as they reintegrate into society and begin a new chapter in life.</p>
